

How To Create Public Google Document

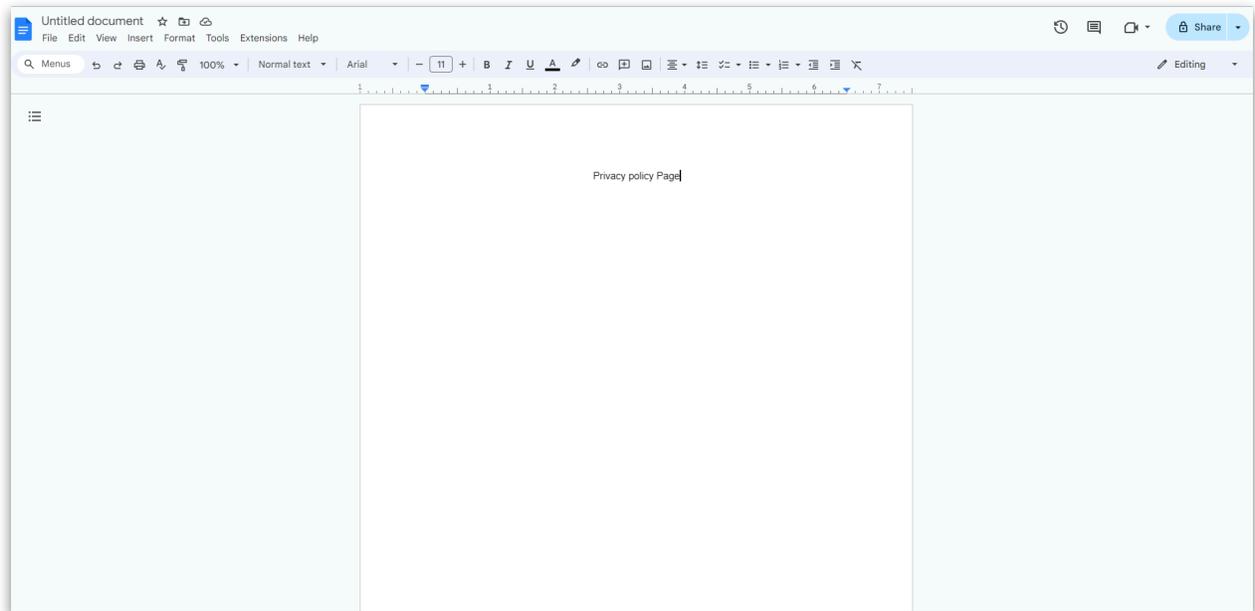

Open Google Doc

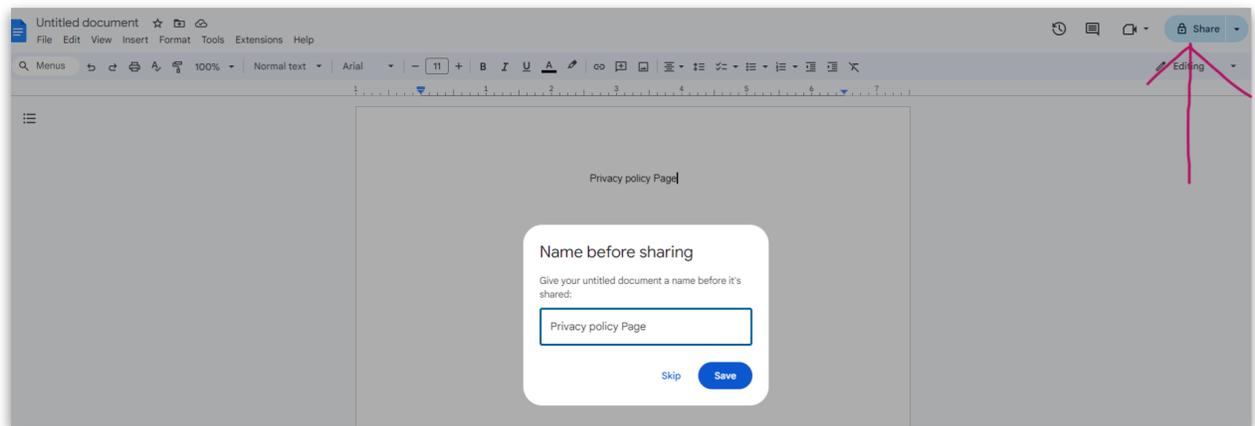

Select Blank Document

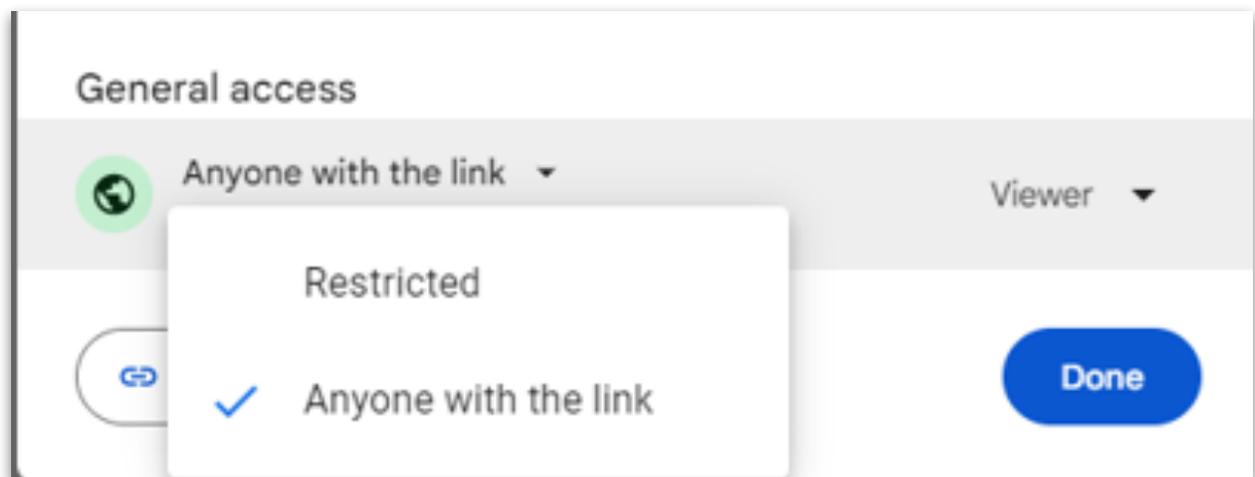

Create your Privacy Policy Page

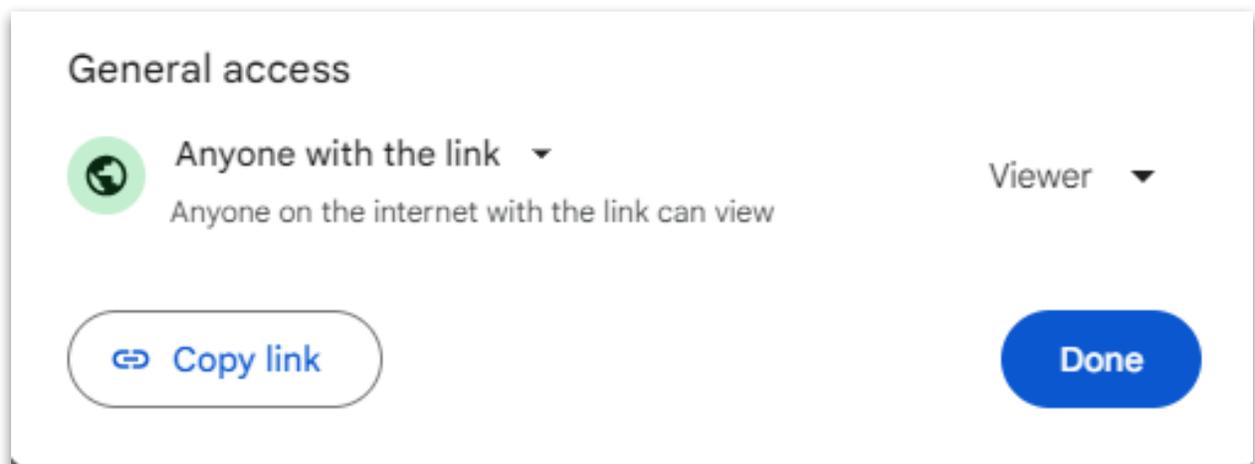

When finished click the “Share” tab and name you document

Next select General Access and select “Anyone with a link”

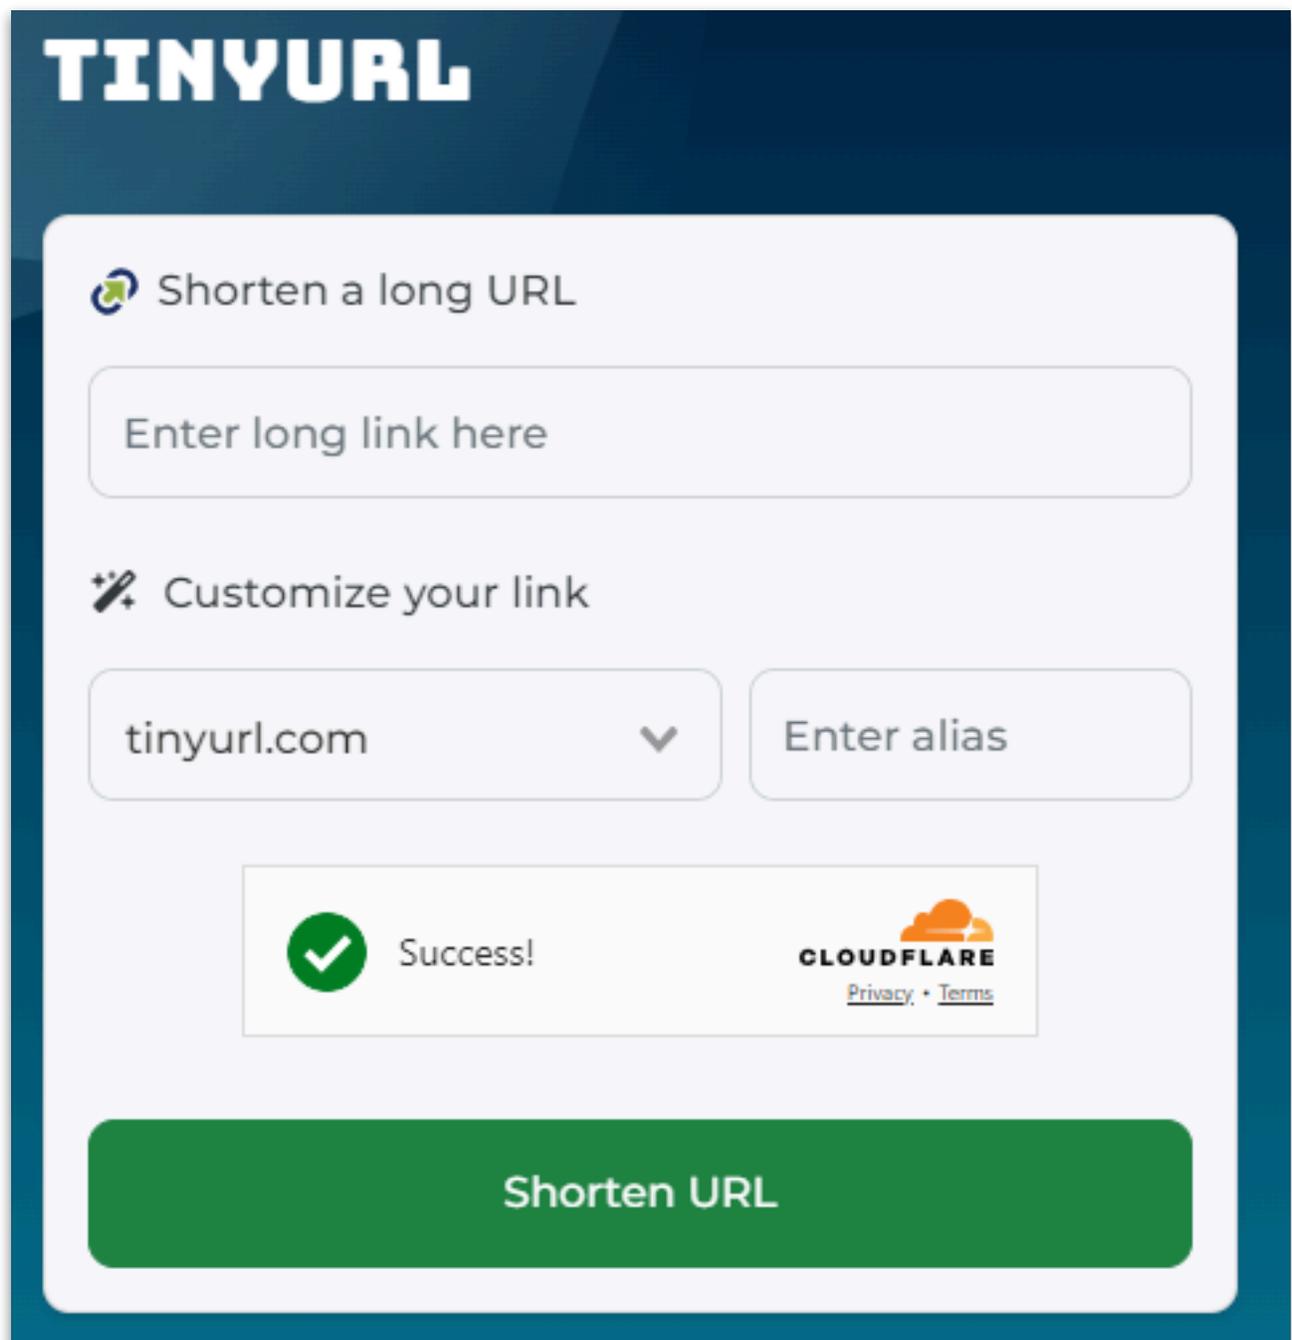

After selecting “Anyone with a link” click on “Copy Link”

You will then be provided a link to share with the public.

Sometimes the Google link to share is too long. Please make it shorter by going to <https://tinyurl.com/> and entering that link into the field to
